The Au-Pairs

Reality

Mary Poppins meets Sex and the City

Synopsis

The Au-Pairs tells the stories of four diverse young people as they take their first steps outside of home, travelling abroad to live and work as au-pairs in a big, bustling city abroad. The programme opens a window into the lives of the au-pairs and their joys and hardships, which are inevitable when moving to a new country for the first time. Settling in with a family is not always easy and cultural conflicts cannot be avoided when you're trying to make yourself at home with people you don't know.

Does life in the glamorous city fulfil their dreams and hopes, or does homesickness take over? And what is life really like for these young people on the verge of becoming independent adults?
